Tea and Talk to Help Along the Suftrage Movement-Society Women Mix with Cap Makers and Salesgirleone Male Rises to Ask Questions

Society and trade unionism foined hands yesterday at Spuyten Duyvil in the interest of the Cause.

The glory belongs entirely to Mes. Pearce Bailey. It was she who, dis- ing girls when she asserted that there appointed that she didn't meet the work- was no chivalry in the factory. ing hirls at any of the suffrage meetings held in Carnegie Hall or the Colony Club or Mrs. Mackay's drawing room or even at the automobile rally in Madison Square. bethought herself that a real garden party might prove a more tempting lure for the wage earner. Accordingly she borrowed from a friend of here the old Seaman place on the crest of the hill which overlooks the Harlem and the Hudson at 215th street. Then she invited representatives of the bookbinders' local number 46, and Rose Schueiderman's cap makers' union, leading alumna of the Manhattan Trade School, girls who sell things in department stores, several stenographers, telephone switchboard operators, girls who make ribbons and cigar makers, as well as trade union organizers and teachers of various branches of skilled labor.

But she didn't stop here. She invited the Ishams, whose place is right next to the Seaman place; Mrs. Simon Flexner, who is a sister of President Thomas of Bryn Mawr; Mrs. Cambridge Livingston, Mre. Harris Robbins Childs, Mrs. John 1. Morehead, who has teen out of Bryn Mawr only a year or two; Mr. and Mrs. Mintern Collins and Richard Collins, and they all came. Dr. Bailey came too and Dr. Morehead and several other physicians. So did Mrs. Harriot Stanton Blatch. The guests, many of whom arrived as early as 2 o'clock, passed under a huge marble arch which forms the entrance to the grounds and climbed a long flight of stone steps flanked every now and then by a brace of marble lions Mrs. Bailey, Mrs. Flexner and Mrs. Flatch received them in the portice of the Italian villa at the summit and told him them to wander about and pick flowers until the rest came.

Most of the representatives of unions wore tailor clothes and sober headgear. although several of the bookbinders were additionally decked with gold watches diamond pins and strings of pearls. The girls who said they sold goods in Sixth avenue, however, wore some of the prettiest linguise freeks and hate adorned with hig bows of blue and pink ribbon that have been seen this season.

Those who think that the heart of roman is not really in the Cause may not believe it, but it is actually true that when Mrs. Bailey asked the crowd whether they wouldn't like to repair at once to refreshment tables, which were agly arranged under a group of trees on the Hudson side of the grounds, they chorused "No. 'et's have the speeches first!"

At the last moment it was decided that it was too hot to have the talking out of bert Latham covered more than 3.6 miles doors, so society and the unions adjourned in a straight line in 4 minutes 13 seconds. to the long cool drawing room and those The wind was blowing at the rate of twelve who couldn't find seats cheerfully stood miles an hour. along the walls and in the big hall while Mirs. The working girls seemed to like what she said and they obviously admired her auburn hair and big brown eyes and the string of pink coral that she wore over her rajah frook. After the applause had died away Mrs. Bailey introduced Mrs. Blatch as the greatest suffrage orator of North America.

Mrs. Blatch spoke so eloquently that Minturn Collins was moved to rise and declare that he thought women ought to have the ballot. Then he wanted to know what they would do with it after they got

and son for generations," said Mr. Collins. "Your ancestors came from England or Scotland or some such place, didn't they? asked the suffragist. "Bristol," said Mr. Collins.

"Well, then," declared Mrs. Blatch, triumphantly, "they didn't always vote, because it is not so very long ago that commoners of England didn't have suf-

He of the courtesy he had received by passing cake and femonade steadily for at least an of the ground and reported that every single disenfranchised present was willing to go on record as a yearner for the ballot. The bookbinders were especially enthusiastic and have decided to make suffrage one of the principal subjects of discussion at their meetings.

Bioycle Policeman W. G. Frank, on duty n Long Island City, was looked up at the 275th precinct station house late yesterday afternoon on a charge of extortion. He walked into a trap laid by Commissioner Bingham.

For some time past the Commissioner has received many complaints from automobilists that grafting bicycle policemen were holding them up along the turnpike road out of Long Island City. The Commissioner sent Sergt. Benjamin Mallam and Sergt. Eugene Casey to investigate. The policemen took the Commissioner's automobile yesterday, stripped it of every telltale sign and put on a false number. They decked themselves out in dusters and heavy goggles and then went over to Long Island City.

They went out on the main turnpike road by way of Tompkins avenue and hit the pace up to fifteen miles an hour. They had not gone very far when Policeman Frank came along beside the machine. "Don't you fellows think you're going

retty fast?" he asked. "Not so very fast, were we?" asked

Mallam. "Not less than twenty-five miles an our." said Frank. He told them he would

ave to arrest them. "Bay," said Mallam in a vexed tone we have an important engagement and don't want to be held up. Can't we slip you something to square this thing."
"You can't slip me anything," said

Frank, "but you might be able to put omething under a stone." Frank took his wheel and turned his back to the machine. Mallam and Casey ad marked and taken the number on follar bill. Mallam put the marked bill inder a stone at the side of the road.

He got back into the machine and oriered the chauffeur to go on. Frank did not turn around when he heard the machine go on. Mallam even tooted the horn to make sure that Frank ould not say that the machine escaped. The police automobile was driven or

bout two miles and then was run down a back street and to Frank's precinct house. The case was explained to the lieuenant on the desk and the number of the bill given to Frank was entered on the blotter. At 4 o'clock Frank came in the blotter. At 4 o'clock Frank came in to report for roll call. When he went to leave the station house Mallam put him Chief of Police Austin for the first year under arrest.

Frank was not allowed to move until Mallam and Casey had frisked his clothes. In a trousers pocket they found the marked dollar bill.

Miller came to Georgia about six weeks ago and began work in the rural districts. He told the negroes he represented a Northern society which wanted to better the condition of the negroes and the way to do it was to form labor unions and strike on the planters. He formed several lodges and collected a fee of \$10 from each. Last Friday Miller reached Sparta and began his work among negroes. When the planters learned what he was doing they handled him roughly and drove him from town. He went to Milledgeville and was again roughly treated by white citizens, who put him on a train and had him accompanied from the State.

CHURCH DROPS MRS. GILBERT

ON RECEIPT OF HER LETTER ABOUT \$5,000 SHE REQUIRED.

Statement From Christian Science Publication Committee She Says Sugsection of Compensation Came From Other Side-To Set Up for Herself.

Mrs. Della M. Gilbert, the former reader in the Dyker Reights Church of Christ, Scientist, who gave out a public statement on Saturday night to all members of the Christian Science Church voicing her belief that Mrs. Mary Baker G. Eddy was at present "either dead or a helple mindless puppet," was dropped from the roll of Church membership last May. This statement was made yesterday by Alfred Farlow of the Boston publication committee of the Church through the New York office of the State committee

In his statement Mr. Farlow said that Mrs. Gilbert's name was taken from the membership roll after Clifford P. Smith. first reader of the mother church in Boston, had received a letter from ber asking for \$5,000. In this letter, which Farlow gave out for publication, Mrs. Gilbert stated that if "Divine Love" would send, give or loan to her that san she would be able to recoup the losses she had incurred in initiating the Sunday church services at the Plane Hotela move which did not find favor with the directors of the mother church.

In speaking of the sending of the letter to Reader Smith by Mrs. Gilbert and the events which preceded that action Mr Farlow said:

"Mrs. Della M. Gilbert of New York called at Mrs. Eddy's house Thursday, May 20, 1909, was admitted to the library and had a short talk with Mr. Dickey, Mrs. Eddy's secretary, regarding an interview with Mrs. Eddy. She was not shown about the house and say no one but Mr. Dickey and the mald who answered the doorbell; she was informed that no one except Mrs. Eddy made such appointments, that it was not within Mr. Dickey's power to make such an appointment, that he would present the matter to Mrs. Eddy at the usual hour in the day for such business and would

report to Mrs. Gilbert at her hotel. "True to his promise, he presented the matter to Mrs. Eddy, who kindly declined the interview. Accordingly he reported to Mrs. Gilbert, whereupon she wrote the letter, part of which she gave to

This reference is to a letter Mrs. Gilbert wrote to Mr. Dickey after failing to Mrs. Eddy. She told Mr. Dickey that was "the only leader that you or any one saloons were open. The total arrests for personally conducted tour of religion, 1908 were 8,483, which is 414 in excess of this fetichism" and start a Christian Science Church in New York with no

Mother Eddy in it. "The last sentence of this letter," said Frank admitted at once that he had for offences usually credited to whiskey.

A remarkable feature of the report is Mr. Farlow yesterday, "was, 'I will give you until Monday evening at a P. M. to vou until Monday ev answer this letter.'

"On Monday, May 24, the first reader of the Mother Church of Christ, Scienti as a wide open town in the matter of with another member of the church gambling, but under the first year of called upon Mrs. Gilbert at her hotel is Boston for the purpose of admonishing her in regard to her conduct as require by the by-laws of the Church in on of discipline and they expostulated with her in regard to the course which she threatened in her letter to pursue. On the same day Mrs. Gilbert sent the follow-

ing letter to Mr. Smith, the first reader: "My Dran Sin: I shall leave at 10 o'clock for New York—train leaves at 10 o'clock Meanwhile I shall be guided in my future Meanwhile I shall be guided in my future which way through which as led me so far, and supply me

has led me so far, and supply means demonstration to me. My thought is confused since my talk with you.

"Of course I realize that for my own sake and the sake of God's great cause I cannot afford to take one misstep, and I have prayed for guidance as never before. My leading has come to me in this way.

"If Divine Love will send, give ordered to me the sum of \$5,000 to reimburs for my loss so far—the loss of my por and salary, my office and furni the loss incurred from being une that as a leading that I am wrong and the money will enable me to recover myself and pay off obligations incurred while making a move which I thought was right

at the time.

"The money would tide me over the next few months while I am trying to regain lost footing and enable me to start my church work in the fall in New York if at Martin Labe Locked Up.

God knows I have given up too much for His work to ever be accused of that. It is simply my way of figuring out God's leading. For if God is our source or supply then our source of supply is God. Very sincerely yours.
